How Travel Assistance Service Works

For assistance dial **1.800.936.6226** within Canada and the United States or call collect **0.519.742.3556** when traveling outside Canada and the United States. These numbers appear on your GSC Identification card.

Quote the GSC travel assist group number and your GSC Identification Number, found on your GSC Identification card, and explain your medical emergency. **You must always be able to provide your GSC Identification Number and your provincial health insurance plan number.**

A multilingual Assistance Specialist will provide direction to the best available medical facility or legally qualified physician able to provide the appropriate care.

Upon admission to a hospital or when consulting a legally qualified physician or surgeon for major emergency treatment, we will guarantee the provider (hospital, clinic or physician), that you have both provincial health insurance plan coverage and GSC travel benefits as detailed above.

The provider may then bill GSC Travel Assistance directly for these approved services for amounts in excess of \$200.

GSC Assistance Medical Team will follow your progress to ensure that you are receiving the best available medical treatment. These physicians also keep in constant communication with your family physician and your family, depending on the severity of your condition.

When calling collect while travelling outside Canada and the United States, you may require a Canada Direct Calling Code. In the event that a collect call is not possible, keep your receipts for phone calls made to GSC Travel Assistance and submit them for reimbursement upon your return to Canada.

Travel Limitations

1. Coverage becomes effective at the time you or your dependent crosses the provincial border departing from their province of residence and terminates upon crossing the border returning to their province of residence on the return home. If traveling by air, coverage becomes effective at the time the aircraft takes off in the province of residence and terminates when the aircraft lands in the province of residence on the return home;
2. Upon notification of the necessity for treatment of an accidental injury or medical emergency, GSC's Assistance Medical Team reserves the right to determine whether repatriation is appropriate if the patient's medical condition will require immediate or scheduled care. Such repatriation is mandatory, where the Assistance Medical Team determines that the patient is medically fit to travel and appropriate arrangements have been made to admit the patient into the provincial government health care system of their province of residence. Repatriation will ensure continued coverage under the plan. Should the patient opt not to be repatriated or elects to have such treatment or surgery outside their province of residence, the expense of such continuing treatment will not be an eligible benefit;

The patient must contact GSC Travel Assistance within 48 hours of commencement of treatment. Failure to notify us within 48 hours may result in benefits being limited to only those expenses incurred within the first 48 hours of any and each treatment/incident or the plan maximum, whichever is the lesser of the two;

3. Air ambulance services will only be eligible if:
 - they are pre-approved by GSC Travel Assistance
 - there is a medical need for you or your dependent to be confined to a stretcher or for a medical attendant to accompany you during the journey
 - you or your dependent are admitted directly to a hospital in your province of residence, and
 - medical reports or certificates from the dispatching and receiving legally qualified physicians are submitted to GSC Travel Assistance
 - proof of payment (including air ticket vouchers or air carrier invoices) is submitted to GSC Travel Assistance
4. If planning to travel in areas of political or civil unrest, or in areas where Global Affairs Canada (GAC) has issued a formal travel warning regarding non-essential travel, contact GSC Travel Assistance for pre-travel advice, as we may be unable to guarantee assistance services;
5. GSC reserves the right, without notice, to suspend, curtail or limit its services in any area in the event of political or civil unrest, including rebellion, riot, military uprising, labour disturbance or strike, act of God, or refusal of authorities in a foreign country to permit GSC to provide service. This includes travel in any area if at the time of booking the trip (including delay of travel), or before your departure date, Global Affairs Canada (GAC) issued a formal travel warning advising Canadians to avoid all or non-essential travel to that specific country, region or city due to a likely or actual epidemic or pandemic, (non-essential travel will be deemed as anything other than a significant medical or family emergency, such as the death of a family member);

Travel Exclusions

In addition to the General Overall Exclusions, eligible benefits do not include and reimbursement will not be made for:

1. Any expenses incurred for the treatment related directly or indirectly to a pre-existing or pre-diagnosed medical condition that, at the time of your departure from your province of residence, was not completely stable in the professional opinion of GSC Assistance Medical Team and where medical evidence suggested a reasonable expectation that treatment or hospitalization could be required while traveling. GSC reserves the right to review your medical information at the time of claim.

Stable means that during the 90 days immediately preceding your departure:

- a) your pre-existing/pre-diagnosed medical condition:
 - i) has been controlled by the consistent use of the same medications and dosages (excluding changes in medication that regularly occur as part of your ongoing treatment, or decreases in dosage resulting from an improvement in your pre-existing/pre-diagnosed medical condition) prescribed by a legally qualified medical professional;
 - ii) has not, in the reasonable opinion of a legally qualified medical professional, required additional treatment for a recurrence, complications or any other reason related either directly or indirectly to your pre-existing/pre-diagnosed medical condition;
 - b) you have not consulted a legally qualified medical professional for, or had investigated or diagnosed, a new medical condition for which you have not received medical treatment;
 - c) you have not scheduled/are not awaiting any future appointments for non-routine examinations, consultations, tests or investigations (including results) for an undiagnosed medical condition;
 - d) you have not scheduled/are not awaiting any exploratory surgical procedures for an undiagnosed medical condition or surgical procedures for a diagnosed medical condition.
2. Any expenses incurred for treatment or surgery that is not required for the immediate relief of acute pain or suffering as recommended by a legally qualified physician or surgeon. Eligible benefits will not be reimbursed for treatment or surgery that could reasonably be delayed until you return to your province of residence;
 3. Any expenses incurred for treatment or surgery not covered under your provincial health insurance plan or for expenses incurred for treatment or surgery towards which your provincial health insurance plan has not provided payment;
 4. Any expenses incurred for services, treatment or surgery received once the patient has opted to not be repatriated or elects to have such treatment or surgery outside their province of residence;
 5. Any claims arising directly or indirectly from any medical condition you suffer or contract in a specific country, region or city due to an epidemic or pandemic, if at the time of booking the trip (including delay of travel), or before your departure date, Global Affairs Canada (GAC) issued a formal travel warning advising Canadians to avoid all or non-essential travel to that specific country, region or city. In this exclusion a medical condition is limited to the reason for which the formal travel warning was issued and includes complications arising from such medical condition;
 6. Treatment or services required for ongoing care, rest cures, health spas, elective surgery, check-ups or travel for health purposes, even if the trip is on the referral of a physician;
 7. Treatment or service that you elect to have performed outside Canada when the medical condition would not prevent your return to Canada for such treatment;

8. Abusive or excessive consumption of medication, drugs or alcohol and the ensuing consequences, including, and as a result of, in connection with or in any way associated with driving a motorized vehicle while impaired by drugs, alcohol or toxic substances or an alcohol level of more than 80 milligrams in 100 millilitres of blood. (A motorized vehicle means any form of transportation which is propelled or driven by a motor and includes, but is not restricted to an automobile, truck, motorcycle, moped, snowmobile, or boat);
9. Amounts paid or payable under any Workplace Safety and Insurance Board or similar plan;
10. Hospital and medical care for childbirth occurring within 8 weeks of the expected delivery date from the date of departure, or deliberate termination of pregnancy;
11. Treatment or service provided in a chronic care or psychiatric hospital, chronic unit of a general hospital, Long-Term Care (LTC) Facility, health spa, or nursing home;
12. Services received from a chiropractor, chiropodist, podiatrist, or for osteopathic manipulation;
13. Cataract surgery or the purchase of eyeglasses or hearing aids;
14. Any expenses incurred during any trip taken for the purpose of seeking medical treatment or advice that have not been previously authorized as outlined in referral services.

GSC does not assume responsibility for nor will it be liable for any medical advice given, but not limited to a physician, pharmacist or other healthcare provider or facility recommended by GSC Travel Assistance.
