**University of Windsor Summer Research Program in Physics**
***Application Form***

This year the Department of Physics has a special summer research program. A stipend of $3,750 (or $1250/month) in funding is available to start your research in the summer before your official start date in September.

**Eligibility:**
You must

- have confirmed your acceptance of the offer of admission from the Department of Physics by April 30th;
- be accepted by a research supervisor; and your supervisor commits to summer research funding
- spend three months of full-time research between May 15th and August 15th;
- register in the Physics graduate program (MSc thesis option or PhD) in September (May and January starters are ineligible);
- be a Canadian citizen or a permanent resident of Canada.

**Conditions:**

- Students are not eligible to take any courses or use other facilities such as the athletics centre at the University of Windsor.
- Students are not eligible for the GSS dental or health benefits during this period.

Please submit form by **April 30** to the Physics Department Office.
